PROFESSIONAL SUMMARY

IT Support and Infrastructure Specialist with 12+ years of progressive experience across enterprise IT support, desktop support, systems administration, network operations, endpoint support, and infrastructure deployment. Strong hands-on background in Windows environments, Active Directory, Microsoft 365, user access, hardware/software troubleshooting, endpoint protection, and network infrastructure. Delivered enterprise client projects involving Mastercard Zimbabwe, Ericsson Zimbabwe, Qatar Airways, and SITA AERO, including network upgrades, equipment deployment, SD-WAN installation, VOS upgrades, and connectivity migrations. CompTIA Security+ certified, bringing a security-conscious approach to access control, patch management, endpoint support, and incident escalation.

CORE SKILLS

- **IT Support & Service Desk:** Tier 1/2 support, Windows 10/11, hardware/software troubleshooting, remote & onsite support, onboarding/offboarding, incident resolution, documentation
- **Systems & Microsoft:** Active Directory, user accounts, permissions, security groups, Group Policy, Microsoft 365, Windows Server, domain joining, endpoint administration
- **Networking & Infrastructure:** LAN/WAN, network troubleshooting, Cisco, Aruba, Dell Versa SD-WAN, VEP1425/VEP1485, VOS, IP configuration, network cabling, access points
- **Endpoint & Security:** Sophos Endpoint Protection/Firewall, endpoint hardening, patch management, vulnerability mitigation, RBAC, least privilege, authentication/access-control support
- **Client Delivery:** Enterprise deployments, infrastructure migrations, equipment rollout, technical documentation, SOPs, client-site implementation and support

PROFESSIONAL EXPERIENCE

Jan 2025 – Present Information Technology Support Specialist | *Netvantage Partners*

- Deliver 1st and 2nd line technical support across client environments, resolving hardware, software, endpoint, authentication, and connectivity issues.
- Support Windows endpoints, Active Directory accounts, user access, secure onboarding, and endpoint deployment.
- Support structured patch management and vulnerability mitigation to maintain compliant, up-to-date systems.
- Investigate malware alerts and unauthorized access attempts, escalating security-relevant incidents appropriately.
- Develop IT support documentation and incident-handling procedures to standardize support delivery.

Jan 2021 – Present IT Support Specialist (Contract & Consulting) | *Zuotech Technology Solutions*

- Provide enterprise IT support, infrastructure administration, network operations, and onsite client deployment services.
- Administer Active Directory, user access, RBAC, and least-privilege permissions; troubleshoot Microsoft 365 and application issues.
- Deploy and configure Dell Versa SD-WAN appliances, including VOS upgrades, IP configuration, migration support, and connectivity validation.
- Deliver endpoint protection, patch deployment, vulnerability mitigation, and technical documentation across client networks.
- **Mastercard Zimbabwe (Mar–Apr 2022):** supported LAN cabling and decommissioning of legacy Cisco infrastructure; racked and installed Aruba controllers, switches, and access points.
- **SITA AERO (Jul 2026):** racked, powered, console-CLI configured, cabled, and connectivity-tested two Dell Versa VEP1485 SD-WAN appliances.
- **Qatar Airways (Aug 2026):** performed VOS upgrades, device onboarding, and SD-WAN migration on Dell VEP1425 appliances across Harare Airport Back Office and City Office.
- **Ericsson Zimbabwe (Nov 2016–Dec 2018 project):** re-imaged laptop fleets, joined devices to the domain, configured email access, and installed network switches/access points.
- Delivered Yeastar P-Series PBX/UCaaS installations and configuration for reseller clients.

Jan 2019 – Dec 2020 Desktop Support Technician | *Raising Dawn Investment*

- Administered user accounts, permissions, and security groups for 120+ users while providing desktop and access-control support.
- Monitored Sophos Endpoint Protection and firewall telemetry and escalated endpoint/security anomalies.
- Supported backup, recovery, business continuity operations, and technical documentation.

Jan 2016 – Dec 2018 **Information Technology Support Technician** | *Compusys Technology*

- Delivered desktop, network, and infrastructure support across multiple client environments.
- Managed user access controls and permissions; troubleshoot authentication and access issues.
- Applied security patches, supported vulnerability remediation, and resolved hardware, software, and network issues.

Mar 2014 – Dec 2015 **Help Desk Support Technician** | *shermanit*

- Supported 200+ users across multiple business locations through remote and onsite technical support within defined SLA requirements.
- Troubleshoot hardware, software, networking, and authentication issues and supported software deployments and infrastructure updates.
- **AJP Group (May–Aug 2015):** retired outdated systems, onboarded devices to the domain, implemented VoIP, and migrated data to replacement systems.

Jul 2012 **IT System Migration & Setup (Contract)** | *Abbeydale Group*

- Migrated servers, installed HP switches, re-imaged PCs, joined computers to the domain, connected VoIP phones, and reconnected IP cameras to new PoE switches.
- Decommissioned outdated computers using secure data-disposal procedures.
