

HAZVINEI NOMATTER MASIYA

Cybersecurity Analyst | Security Operations | Detection & Automation
Harare, Zimbabwe | GitHub: github.com/hnmasiya | Portfolio: masiya-hub.org
LinkedIn: linkedin.com/in/hazvinei-masiya/

PROFESSIONAL SUMMARY

CompTIA Security+ certified enterprise IT professional with 12+ years of experience across enterprise IT support, infrastructure, systems administration, network engineering, access control, endpoint security and security-conscious technical operations. Hands-on security work includes SIEM detection engineering, threat hunting, DFIR, Windows/Sysmon telemetry, PCAP analysis and automation.

CORE SECURITY & TECHNICAL SKILLS

SIEM/Detection: Wazuh, Sysmon, custom rules, FIM, MITRE ATT&CK
DFIR/Threat Hunting: Linux logs, PCAP/Tshark/Wireshark, hash verification
Automation: Python, Bash, PowerShell, YAML, log parsing
Enterprise Security: Windows Server, Active Directory, GPO, RBAC, least privilege
Network/Infrastructure: LAN/WAN, Cisco, Aruba, Sophos XG, Dell Versa SD-WAN
Cloud/DevSecOps: GCP, Terraform, Azure security lab, GitHub Actions

SECURITY ENGINEERING PROJECTS

Windows Sysmon / Wazuh LSASS Detection Validation

- Validated Sysmon Event ID 10 telemetry in a self-owned Windows Server lab.
- Correlated process access to lsass.exe with custom Wazuh detection logic.
- Mapped findings to MITRE ATT&CK T1003.001 and T1059.001.

Wazuh SIEM Rules & FIM Lab

- Authored custom XML detection rules and validated controlled test events.
- Configured File Integrity Monitoring across critical Linux files.

Linux Incident Response & DFIR

- Reconstructed attack timelines from Linux authentication and system logs.
- Verified SHA-256 evidence integrity and mapped unauthorized SSH activity.

Active Directory Security Event Automation

- Developed Python tooling for Windows Security events 4624, 4625 and 4728.
- Automated identification of suspicious authentication and privileged-group activity.

PCAP Traffic & Triage Automation

- Used Tshark and Python to identify suspicious HTTP requests, hosts and IOCs.
- Automated triage of scanning and SQL-injection patterns in controlled traffic.

PROFESSIONAL EXPERIENCE

Information Technology Support Specialist | Netvantage Partners | Jan 2025 - Present

- Deliver 1st/2nd line support across client Windows, authentication and connectivity environments.
- Support Active Directory accounts, secure onboarding, patch management and vulnerability mitigation.
- Investigate and escalate security-relevant incidents including malware alerts and unauthorized access.

IT Support Specialist (Contract & Consulting) | Zuetech Technology Solutions | Jan 2021 - Present

- Provide enterprise IT support, infrastructure administration, network operations and deployments.
- Administer Active Directory, RBAC, least privilege, Group Policy and Microsoft 365.
- Deploy Dell Versa SD-WAN appliances; perform VOS upgrades, migration and connectivity validation.
- Deliver endpoint protection, patch deployment, vulnerability mitigation and documentation.
- Client projects include Mastercard Zimbabwe, SITA AERO and Qatar Airways infrastructure work.

Desktop Support Technician | Raising Dawn Investment | Jan 2019 - Dec 2020

- Administered accounts, permissions and security groups for 120+ users.
- Monitored Sophos endpoint/firewall telemetry and escalated security anomalies.

Information Technology Support Technician | Compusys Technology | Jan 2016 - Dec 2018

- Delivered desktop, network and infrastructure support across client environments.
- Managed access controls, applied security patches and supported vulnerability remediation.

Help Desk Support Technician | shermanit | Mar 2014 - Dec 2015

- Supported 200+ users across multiple locations within defined SLA requirements.
- Troubleshoot hardware, software, networking and authentication issues.

IT System Migration and Setup (Contract) | Abbeydale Group | Jul 2012

- Migrated servers, installed switches, re-imaged PCs, joined domains and supported VoIP/IP cameras.

CREDENTIALS & EDUCATION

CompTIA Security+ (SY0-701) - CompTIA

Google Cybersecurity Professional Certificate - Google

Google IT Support Professional Certificate - Google

BSc in Computer Science - Unicaf University (In Progress)

Diploma in Information Technology - Macmaine School of Computing

Diploma in PC Maintenance and Networking - Macmaine School of Computing

CYBERSECURITY VIRTUAL EXPERIENCE

Mastercard Cybersecurity Job Simulation - Forage | Completed September 2026

Datacom Cyber Security Operations Job Simulation - Forage | Completed September 2026

Note: Forage simulations are virtual experiences, not employment with the named companies.
